Sierra Madre Vacationers 'Tourist of the Week'

Mr. and Mrs. C. L. Young of 214 Olivera Lane left Sierra Madre last week for a well earned vacation to Michigan and the New England States.

We can well imagine the surprise, when Mr. and Mrs. Young (Lucy) were stopped by the police of Liberal, Kansas, but they were assured that no rules had been broken, nothing was wrong, they were just the lucky tourist to be stopped and chosen, "Tourist of the Week.'

The "Tourist of the Week." is an annual event during the summer months in Liberal. It is jointly spon-sored by the Liberal Highway Association and the Roads Committee of the

Chamber of Commerce. Each Friday evening during the months of June, July and August a tourist is stopped by the police and the host for "Tourist of the Week." The tourist is then notified that they have been selected for this week and are given their motel or hotel lodging for the night, their evening meal is provided by one of the restaurants, their car is either washed and greased or provided with 10 gallons of gas, whichever they wish. They are also given souvenirs of Liberal. They are inter-

Not that we did not have the very best, because we did, without a doubt have one of the finest Police Chiefs in Gordon McMillan the new branch which will . . . now comes another one it is our firm belief that square feet and resemble James Bale will fill out the retiring chief's shoes to the capacity.

-CT-Had a nice long talk with service. Its extensive parkour new Chief Bale, and he is a man that all of us are going to like tremendously . . . I asked him about and transact their business changes . . . very few was his remark . . . those that will be made, will be done so, gradually, and as they are needed . . . you can see the pride in his eyes when he talks about "his boys" of the Sierra Madre Police force we wish him success in all his endeavors, which we are sure will be for the betterment of the people of Sierra Madre as a whole.

We are sorry to report that Jack Kennedy, advertising manager of the News, is no longer with us as predicted by several business-men, he did last twelve months longer than they suspected Jack became tired, and a good newspaper man just cannot get tired.

As I stated before, one of my Democratic friends, Harry S. Truman, once said "if you find that it gets too hot in the kitchen, then it is time that you 'got out'" and that is what Jack has done . . . his many friends will wish him success in any new venture he may en-

The selection of a new man to take his place will be done carefully and with the welfare of the community and the newspaper at heart . . . until that time, "yours truly" will don another hat and fill in the vacant slot.

Second "End-O-Month" Sales Event Geared To Bring Shopping Pleasure

Yes sir, bub, the local merchants of Sierra Madre are on a rampage this week, with bargains galore throughout all the stores. This is the second in "End-O-Month" sales that have been plan-

ned especially for you, that you can more fully realize that Sierra Madre is one gigantic "Shopping Center," with warm, friendly mer chants, who open their doors each and every day to give you the very best in quality merchandise at the lowest possible price. Each merchant has stud-

ied his stock, and his offerings in this issue of the News are not old, shelf-worn merchandise that he wants to get rid of. The items that he offers are new merchandise, and the profits cut so that you, his customers, can receive a quality bargain.

Here is an additional feature this month, whereby Mr. Merchant gives you the chance for an extra dividend. Your paper is numbered. On pages 12 and 13 you will find a number in the middle of the page. Look up The wail of the Sierra this number and then turn Madre fire siren and engine to page 11 and see if that number corresponds to any numbers listed at the top two times this past week, of page 11.

Calif. Water & Telephone To Acquire New Property

Chester H. Loveland, president of Western Utilities Corporation, and Miles A. Sharkey, president of Duarte Water Company, jointly announced today that Western

Utilities Corporation has offered to acquire all the shares of common stock of Duarte Water Company at the price of \$65 per share. The water company's

board of directors has recommended to its 2.100 stockholders that the offer be accepted. Approximately 20,-000 common shares are outstanding. Duarte Water Company

serves 5,800 customers in an area about 10 miles east of Pasadena. In 1962, the company's operating revenues totaled \$382,000, and at year end its net plant investment was \$2,139,000.

Pending acquisition of a controlling interest in Duarte Water Company, Western Utilities Corporation proposes to transfer that com-

There were fire burnings in the various family fire pits, and dinner was already becoming a positive fact. Each camp had a small cabana. By that I mean a small roof and back windbreak, and out of this small structure emerged our homes for a week. We struck tents for sleeping and dressing. We designated outside wash rooms, laundry rooms for hanging of wet suits, yes, we even had outside larders. We imported all of our water for drinking and cooking, plus all of our own refrigeration. Later on in the week the Holmes left camp and Bob and Sara Anderson came down to oversee the boys and to join our group. We were also joined that day by Dr. John Howard and Pat, with Mike, Mark and Nancy, and Dr. Doug Batten, with Roberta, and their four children, Barbara, Bruce, Belinda, and Bob, and their Gail Thompson, and lastly, nephew, Ken Kaufman.

One of the nicest evenings of all was when the children gave a talent show for and candle lighted stage. We had magic, singing, dancing, and guitar playing with a community sing. We had the hula hula and "My County Tivasee" from the little five and six year olders to professional M.C.ing by the oldest boy in the camp, Ken Kaufman.

Luckily, the John Frickes, John and Jean and their youngest child, Mike were able to come down for at least three days of the trip, in spite of the fact that they are deep in wedding plans for their daughter Ann.

I could go on and on. We camped, and found out what life is really like without too many frills.

The most important thing is that we stopped running long enough to look around and get to know one another the ice water was wasted bebetter, to see the little cause it was boiled to do sweet things, to enjoy being alive and to appreciate liv-

Grand Re-Opening the next meeting of the Guild will be held on September 5. At this time last minute reports will be made, from the committee members, on the progress of the benefit. The benefit, "September Affair," is being held on September 21, at the Stuart Building.

Dance Contest To Find Cupi-Dolls

Paul Leonard, pioneer in Teen-Age Beauty Contests for Grace of Motion, is announcing something new a beauty and dance contest for little girls, ages three to eight — the first contest to choose the "Queen of the Cupi-Dolls." Girls from all areas may enter.

This novel feature will be presented to the public at the Los Angeles County Fair on the stage of the Amphitheatre, during Paul Leonard's Sixth Annual Beauty Contest for graceful girls. The date is Saturday, Sept. 28, at 11 a.m.

From previous teen-age contests have emerged winners who have gained wide recognition, among them, an international champion of tandem surfboard riding, a Pasadena Rose Queen and Princesses, and a Miss Teen Pasadena. Latest winner: Lori Lechner, the new Miss California and finalist in the International Beauty Contest, just completed. Each of the girls mentioned had special training with Mr. Leonard.

The present Miss Teen Pasadena, Penny Harwood, will star in a production number at the Fair. Yvonne Dominguez of Altadena, who claims direct descent through her father, from the fabled Ponce de Leon, is also to be a featured dancer of this group, trained in the classic Free Dance technique.

The overall winner will be decided once again on the basis of grace of motion to music, as revealed on film. Her title will be Miss Filmo-genic. The first "Miss Filmogenic" selected from film clips of last year's contest was Nancy Davis, who later became widely known as Pasadena's Rose Queen.

Both teen-agers and "cupidolls" (ages 3 to 8 years), are cordially invited to register for the forthcoming events. Those interested should call 449-1759 evenings, or appear at 161 N. Oak Knoll, Pasadena, on Saturday mornings, from 9 a.m.

Ceramic Classes At Monrovia Evening School

Monrovia Evening High and Adult School, at Colorado and Madison Aves., announces that ceramics classes will be held during the Fall semester, on Thursdays, beginning September 19, from 7 to 10 p.m. and on Fridays, beginning September 20, from 9 a.m. to noon, in Room 3 in Shop 1, at the Monrovia High School.

Mrs. Elizabeth Johnson is the instructor of the class, and many beautiful works of art are created by the members of these classes. Anyone interested in these classes may enroll with Mrs. Johnson at the time the class meets, or for further information, call the Monrovia Evening High School

Bethany Church Notes

Activities at Bethany Church have been largely curtailed in order to devote all efforts toward the Billy Graham Evangelistic Cruasde now in progress at the Los Angeles Coliseum. The church sponsors a nightly bus which leaves the church at 6:15 p.m. Monday through Friday. There is no service on Saturday.

One major change in the Crusade schedule is the time of the Sunday meetings this coming Sunday, Sept. 1, and then Sept. 8. Instead of meeting at 3 in the afternoon the service will be held at 7 in the evening on these two days. Consequently Bethany Church is providing bus transportation for these services also. Labor Day ---

We are on the threshold of another Labor Day. The occasion invites a brief reflection on our nation's economic growth.

It took courage, risk and determined effort on the part of self-reliant men to turn wild land into productive farms and ranches, to build towns, develop industries, and push the railroads through to the Pacific Ocean.

The driving energies of a free people sped the de-velopment and use of scientific, industrial and business innovations which transformed a wilderness continent into the wish to go. Cancellations world's greatest and most admired industrial complex.

With the development of rapid communication, transportation and mechanization of industry, undreamed of employment opportunities have been created.

The American free enterprise system has provided the productive growth, the employment, the ever-rising standard of living that all of us expect and demand of it.

Nowhere else in the world has labor received so many material benefits as in the United States.

Enrollment At St. Rita's Up For Coming Year

Mother Mary Hermana, O.S.F., superior at St. Rita's School, Sierra Madre, for the last three years, has returned to resume her duties for the coming school year. Unlike last year, Mother Hermana will not be a teaching principal, but will spend her entire time in administration and supervi-

Mother Mary Clarissa.

newly elected Provincial of the Sisters of St. Francis of Penance and Christian Charity, has selected the other religious personnel for the school. Nine sisters will be on the faculty of St. Rita's this year with eight lay teachers. Four of the sisters are new to St. Rita's - Sister Rosemarie, who comes from Holy Angeles, Arcadia; Sister Mary Elaine, who has been in Buffalo, New York; Sister Mary Brendan, who was at the Grace Day Home in Sacramento; and Sister Mary Raymond, who was stationed in Cincinnati,

Three of last year's teachers received other assignments. Sister Mary Cletus, former first grade teacher, and Sister Mary Mark, former fourth grade teacher. are in Havre, Montana, while Sister Francis Marie, another first grade teacher, will be teaching at Holy Angels School, Sacramento. Among the lay faculty Mrs. Kathleen Lavigne, Mrs. Thomas Tobin, Mrs. Katherine Williams, Mrs. Marion Henning, Mrs. Virginia Mc-Crohan and Major David Lavigne are returning. New members of the faculty are Mrs. Margaret Conn and Miss Marcella Barrett.

The total school enrollment to date is 600, compared with 545 last year. It is expected that registration will be well over the 600 mark when school opens on September 10.

There will be two classes of each grade, first through eighth, making full use of the facilities available at the school.

The teachers, the grades they will teach, and the total number in each grade are announced tentatively as - first grade, 76, Sister Mary Elaine and Sister Rosemarie; second grade -92, Sister Mary Carolyn and Kathleen Lavigne; third grade - 72, Sister Mary Brendan and Mrs. Thomas Tobin; fourth grade - 79, Mrs. Katherine Williams and Mrs. Margaraet Conn: fifth grade - 80. Mrs. Marion Henning and Sister Mary Raymond; sixth grade 77, Sister Mary Gemma

and Mrs. Virginia McCrohan; seventh grade - 73, Sister Rosemary (girls) and Miss Marcella Barrett (boys); eighth grade - 50. Sister Mary Leonard (girls) and Major David Lavigne

Sister Mary Leonard will again serve as vice principal of the school, while Mrs. Thomas Marchine will continue to handle the clerical duties in the office.

Sculpture -- Artists WANTED

We are moving our design division to Sierra Madre and we are in drastic need of sculptors and creative artists who live in the area.

Even though you be a housewife with but a few hours a week to spend. A part time worker, a young boy or girl interested in the field of art and sculpturing, we want your application.

Our plant is in Riverside, but as soon as we can establish skilled personnel in Sierra Madre, many new products and operations will be transferred to this area.

American Legion Auxiliary Have Special Guests

Miss Patricia Tackabury and her mother Mrs. George Tackabury of San Marino were special guests at the meeting of Unit No. 297
American Legion Auxiliary on Thursday night. The meeting was held at the home of Mrs. Clinton Symonds, 260 Ramona Ave., with Mrs. Anna Block as co-hostess

Miss Tackabury of San Marino High School repre-sented the unit at the Girls cently at Davis University, where over 500 girls from various high schools throughout the State were sponsored by the American Legion Auxiliary. She gave an interesting report on her experiences there where the were made familiar the three types of government: city, county and state.

Past president Rose Galkin who has just returned from touring Bermuda, gave a short resume of her wonderful trip.

The next meeting of the unit will be held on Thursday evening, Sept. 12 at the home of Mrs. Roy Pickett, 189 W. Highland Ave.

ing hours of the general session incorporated a total of \$40 million for '63-'64 and a total of \$87.5 million in '64-'65. Every bill considered by the special session allotted at least \$40 million for the current fiscal year. Yet the provided only \$25 million. How this result can be squared with the claims that education has first priority under our Constitution is a mystery. The Governor's requests for supplemental ap-propriations during the spe-cial session were hardly pared at all in their final approval. There was apparently no inclination to refuse salary increases and other items, except for the schools. The spectacular failure to provide adequate educationsupport was so obvious and alarming that even Su-pertendent Max Rafferty and Board of Education Chairman Thomas Braden collaborated in a joint statement or condemnation.

The real tragedy of the whole series of legislative developments is that the Conference Report submitted on June 21 was rejected. The A&P's CAP'N JOHN FROZEN on June 21 was rejected. The essence of that proposal was \$40 million for the current year, with \$60 million plus the county-wide tax to provide a total of \$87.5 million in '64-'65. I am firmly convinced that this report would have been approved if the Governor had not seet fit to scuttle all his revenue proscuttle all his revenue proposals after the failure of the bank and corporation

Miss Flovia to Open Art Exhibit Wilshire Federal

It has often been said that a cat is a cat is a cat. But as far as Flovia is concerned, this is not so, for there is only one cat, and she is called Miss Dilly.

Miss Flovia, painter and art instructor, says she owes everything to this now famous cat, including her gal-lery and art school in West Hollywood which is known as "Miss Dilly's House."

It all started a few years ago when Miss Dilly was left in Flovia's care while her mistress was on an extended trip. The newsy letters writ-ten by Flovia, signed "Miss Dilly," became such a hit with the cat's owner that she sed them on to friends who in turn wrote Miss Dilly. Fan letters started to come in from distant points in Europe and Israel and lovia answered them all, request return postage as she was going broke. As the cat lovers responded with modest amounts, a bank ac-count was opened in Miss Dilly's name, and shortly thereafter the art school and

allery became a reality. Flovia, who by her own dmission is a working artst who loves to paint and each others to paint, will pen an interesting display f her paintings on Monday, Aug. 26, through Sept. 6, in Wilshire Federal Savings art salon, 3500 Wilshire Boulevard, Los Angeles. It will include over 45 oils of portraits, landscapes, seascapes capes, seascapes

She will present painting demonstrations on Fridays, Aug. 30 and Sept. 6, starting at 2 p.m. These demonstrations are open to the public, first come, first seated. No reservations.

This sale will happen each month until the Christmas Season . . . it is a sale that has been planned by the merchants, so that you can get the very most out of your family budget, and not have to sacrifice quality.

—CT— We as readers and potential buyers are quick to realize that here in Sierra Madre, we are one great big "Shopping Center" . . . the only difference being that we are spread out over a little larger area.

One other great difference . . . that the fellows in this "Sierra Madre Shopping Area" are fellows who are constantly working together to help you enjoy your living in this city. . . . Sales created here create Sales Tax which go to reduce your property taxes duce your property taxes, gasoline tax to help reduce your taxes for streets . . . their inventories help to provide the tax money for fire protection, schools and police protection. protection, schools and police protection... every dime possible should be spent in Sierra Madre with Sierra Madre Merchants, who always welcome you to their store, six days a week.

This week, fifty dollars in merchandise awards are going to be made, details within the pages of vivid color. Later, other valuable prizes are being planned, all with you in mind. Take advantage of the many savings during this sale.

Another word here about news . . . Sometimes important news items are left out of the paper, at the time of happening... Two very important reasons why this is done... Number one, it may be done by the request of those involved... or members of the family who do not want the information reported until complete.

The second reason is, of The second reason is, of course, incomplete facts...

The Sierra Madre News tries to the best of its ability to give you the "true picture" and many times we will hold up the "news item" a week to receive those facts... Do not blame us too hershly not blame us too harshly, we are only a weekly news-paper, and we try to please as many people as we can, without hurting others.

Labor Day is Monday . . . the last of the three-day vacations for this year will start this weekend. . . Please, oh please, be careful if you must venture out on the highways during this threeday period . . . Predictions are that 625 will lose their lives . . . let's not have this happen to a Sierra Madrean.

And with this thought, I will leave you for this week and hit the ground running.
... Drive Carefully ... Sierra Madre Merchants need each and every one of you as their customers . . . See you around the streets this week, picking up the many, many bargains, I hope, I hope, I hope.

School Days

Once again school is in the offing. Most youngsters going for the first time will find the experience enjoyable; others will be resistant and unhappy because of some handicap that places them at a disadvantage in school activities. While it is true that school and health authorities work hard to maintain and improve the health of the school child, it is a parental responsibility to see that the child is in every way prepared for the greatly expanded and challenging world that is encountered when school

The importance of a complete examination of the child prior to enrollment in school cannot be over-emphasied. Such an examination should include vision and hearing testing, a dental check-up, and an assay of the child's emotional attitudes. Lack of attention, unsatisfactory academic progress, and even disciplinary problems may be due to some easily correctible defect or maladjustment that goes unnoticed until the child's attitude towards school hardens into dislike, thus laying the groundwork for future difficulties.

The physician's advice may involve the correction of some physical defect, or include recommendations for better health habits such as more sleep or improvement in diet. Or, in special health problems, he may wish to communicate with school health officials so that the child may be more closely supervised or needed remedial work

Since the broadening of contact with other children agencies will use to set the means the greater possibility to exposure of childhood's common contagious diseases, additional protection against them should be given. Booster shots against diphtheria and tetanus are usually recommended as well as revaccination against smallpox. Booster stimulation for whooping cough may or may not be given as this disease is usually serious only in the younger preschool child.

Vaccination against polio, utilizing either the Salk type vaccine or the Sabin oral vaccin, is once again required by State law for school admission. The law applies to any pupil who has not already been immunied against the disease and who is unconditionally admitted to any public or private school. In other words, it is required for all students ranging in age from kindergarten through junior college who are not exempt from the ruling. In those cases where parents are unable to take their children to a private physician for the polio vaccine, this health service may be obtained at local health centers for a small charge.

Exemption from this ruling may be obtained if immunization is contrary to the beliefs of the parent or guardian. This exemption is granted only if the adult responsible for the care and custody of the child signs a letter or affidavit to this effect.

Furthermore, when medical circumstances indicate that exemption for the child by writing a letter to the proper immuniation is unsafe, a licensed physician may obtain authorities stating the nature of the adverse physicial condition and its probable duration.

The law does not apply to those students who wish to enroll in a secondary school for courses consisting of less than 10 class hours of instruction per week, or who reach the age of 21 before the first day of school, If proof of one immunizing dose of polio vaccine is

submitted, admission will be granted on condition that within a certain designated period evidence is produced that the immuniation has been completed, The intent of the law, it should be noted, is to assure

the eventual achievement of total immuniation against polio and so protect all children against the disease.

When parents prepare the child for school as well as they can, there is usually very little to worry about. A healthy child who is mentally alert and emotionally secure is generally receptive to new experiences and is ready to

Tax Facts Concerning Los Angeles County

On July 1 Assessor Watson disclosed the preliminary figures for county-assessed real and personal property.
I analyze these figures to-

day because during my re-cent three radio broadcasts over KNX, listeners' questions showed that the public is much more interested in our "dull" tax problems than generally thought.

yet include the state-assessed properties (public utilities). This roll is not due for delivery to the county by the state board of equaliza-tion before the third Monday in August. By then the supervisors as county board equalization will also decided all protests against over - asse filed between July 1 and 15 and thus reduced the asses sor's preliminary total to the final one "after equaliza-

The state roll together with the equalized county roll then becomes the tax which on or about September 1 the taxing

This is done by dividing the total "net requirements" from their respective budgets by their tax base.

Net requirements are the total requirements (appropriations plus reserves for contingencies, emergencies and estimated delinquency tax collections) less the carryover surplus, if any (over-realized anticipated revenues less under-realized revenue, plus cancelled appropriations, plus estimated delinquent taxes receivable and other accounts receivable), and less the proceeds from property taves whose rates are fixed by law (aircraft 1.5 per cent; solvent credits, 0.1 per cent; un-secured roll, subject to last year's tax rates from the secured roll), and less anticipated revenue other than property taxes (for example, share in gasoline, automobile and other state taxes; state's payments for old nsions, etc, permit

and license fees, etc.). Watson's announced total is \$12,374 million. (This is net, that is, after exemptions, and does also not comprise aircraft and solvent credits which are listed in the official statistics separately from the county-asand state-asessed

This total amounts to \$502 million over 1962, an increase of 4.02 per cent. this increase, about \$330 million seem to have

come from new construction and \$40.1 million from re-The exemptions total would have dropped by another \$24 million as veterans' exemptions alone fell by some \$66 million, but welfare and church exemptions rose and offset part of

This unprecedented \$66 million came from two Watson innovations:

(1) The reworded exemption form makes it almost

(2) The applications were closely audited. Veterans also heard that the grand jury would investigate applications, with perjury indictments to follow where

As a result veterans' ap plications dropped by 114,-494 against 1962.

After deducting these \$370 million from the \$502 million tax base increase, there should remain \$132 million, presumably coming from reappraisal increases. But not some \$45 million. The bal-

True, the difference be-tween the 1962 and 1963 official statistics is exactly as given, but actually the 1962 figure was too low by at least some \$87 million. This is the amount of business personal property (assessed valuation) which under Assessor Quinn was not put on the unsecured 1962 roll in due time (As stated earlier, I shall analyze this incident when my investigation is

Though these values be latedly went on the roll, they could not retroactively become part of the tax base and of the official statistics. Thus, personal property on the unsecured roll seems to

sonalty). But after disregarding the \$87 million, only some \$21.5 million of this increase remain as real and are part of

the \$45 million over-all increase just mentioned.

I rather expected a substantial decrease because Watson justifiedly dropped the ratio for business personalty by six percentage points, that is, from the 45 per cent ratio he inherited from his predecessor to 39

(He intends lowering it to the general ratio of 25 per cent over the next three years. He would have done so already in 1963, but wanted to avoid the financial upset that would have come with so drastic a measure.) I was unable to pinpoint

why there was no substan-tial decrease of the un-secured roll Four factors, together, may have been involved, to varying degrees. The first two factors were beyond Watson's control; the others, his innovations: (1) The physical volume

of business equipment, stocks of goods, etc., may have happened to be higher on tax day 1963 — first on tax day 1963 — first Monday in March — than in

(2) Some items of business personalty may have had higher market values (newer, more expensive, etc.) in 1963.

(3) The new affidavit forms left no loopholes for ambiguous statements and facilitated thorough audit-

(4) The new "trending" schedule (combining replacement cost with realisdepreciation factors) used in appraising business personality items tended to produce higher values in the many cases where taxpayers still used original cost (instead of replacement cost) or other methods in their bookkeeping.

From talks with appraisers and businessmen I gained the impression that the last two factors played a larger role than the first

The most talked about phenomenon was the sudden "wave of honesty" reworld realized the new asaimed to be scrupulously fair but was also having the property statements thoroughly audited.

This is my best explanation for the fact that the drop of six percentage points points from the old 5 per cent ratio appears to been absorbed without

However, it is quite possible that after reductions ordered by the board of equalization and after checking the rolls for duplications and other some of the decrease I foresaw may still appear when the roll becomes final.

I think equalization orders will probably take some \$15 million off the preliminary total and auditing the unsecured roll's personal property column another \$130 to \$135 million. If my nformation as to the latter figure proves correct, and meet police department ex-we add about half of the penses. estimated equalization re-

ness personality, the provi-sional figure for this type of operty might well change om the \$21.5 million net ase to a \$121 million decrease on the final roll.

This would be more in line

Recently we learned that ecause the county budget was so greatly increas the tax rate is going to rise on September 1 to an un-precedented high of 2.1960 - 11.42 cents per \$100 of assessed valuation over

This was calculated on he basis of an assumed four per cent over-all tax base growth. Should the increase be less, once the state-assessment figures are known, the tax rate would have to go up still a bit more But the assessor is not responsible for the bigger budgets. His department is

not a taxing agency.

Against this background we shall study in the coming eight installments the new assessor's many innovations, especially his re-appraisal procedure which, when fully operative, he exects will permit appraising whole county every

"Money — Where Does
It Come From"
A few weeks ago this column discussed the general fund income which is mainly derived from property taxes and the following weeks have discussed the Water Department.

There are a number of other sources of income to a city and since city funds can only have one origin, the citizens, a few words on these funds would seem to

City Sales Tax: The fourth largest single source of funds to the City of Sierra Madre is the state collected city sales tax which should amount to almost \$53,000 this year. This amount comes from the 1 per cent city portion of the 4 per cent sales tax. This money so far has been used to build the swimming pool, purchase park properties including Bailey Canyon, and for other capital improvements in the city. It has been set aside into a special fund just for

capital improvements.

Motor Vehicle In Lieu
Fees: This long title covers the money which each automobile, truck and trailer owner pays as part of the annual motor vehicle lied by the State and returned to the cities on a popula-tion basis. It is the 3rd largest amount available to the city and will bring in approximately \$58,000 this year. The name In Lieu is used since on motor vehicles the license tax is used instead of a property tax. Following a conference with Supervisor Frank G. Bonelli concerning his recommendation on books, chairman of the Department of County Library stated: "I have agreed to review and re-evaluate the County Library's policy governing the circulation of sex education books for children.

It is my belief that pa-

rental responsibility for the reading material of their children takes precedence over any other consideration. Therefore, procedures will be developed which will bring about closer cooperation with parents so that they will have knowledge of and will have knowledge of, and direction over, the reading materials of their children.

I have cooperated with Mr. Bonelli in developing an approach which eliminates any implication of governmental censorship, yet at the same time places upon the parents the primary respon-sibility for the reading hab-its of their children."

We gratefully acknowledge every expression of condolence, extended to us

Catch Up on Your Reading Sometimes it takes a bit one's reading. One day while basking in the Balboa sunshine I had the opportunity to read "The Sad End of Big Daddy Lipscomb" in the July 27-August 3 issue of the august 1 issue of the august 21 issue of th

the currently controversial Saturday Evening Post.

Big Daddy's appetite for women, whisky and sporting life drove him, made him a legend and, in the end, destroyed him. The story written by Edward Line gives ten by Edward Linn gives what amounts to a blow-byolow account of the Pitts-Steeler star's hours before he died of an overdose of narcotics.

The picture he paints is not a pretty one, but, never-

theless, is good reading.

Limscomb himself used to say, "I'm a B and B man.

Booze and broads." His capacity to handle both was one of the wonders of the civilized world. Big Daddy could throw down a fifth of whisky the way an ordinary person would drink a beer.

His appetite for food was gargantuan. A typical breakfast for the 285-pound allstar lineman consisted of a dozen eggs and a pound of bacon washed down by a pint of booze.

Strangely enough, no one seems to know how Lips-comb became an addict. Many of his friends still can't believe Big Daddy was a user.

No one can deny that when Big Daddy did something, he did it in a big

CHILDBIRTH

GOOD OLD DAYS Few families would care to go back to "the good old days" of child-birth. Death of mothers was common-place, often because doctors had no drugs adequate for fighting infection. In 1915 one of every 164 mothers died in childbirth, or from complications of her pregnancy.

Many of these mothers could have been saved by only a few dollars' worth of today's medicines.

Now only one mother in 3,125 dies. Much of the credit for this s. Much of the credit for this provement is due to the new scription drugs. Their cost is prisingly low. In fact, only prescriptions in a thousand 5 prescriptions in a thousand cost as much as \$10. The average one costs only \$3.26. No wonde we say: "Today's prescription the biggest bargain in history."
